

Technical Data Sheet

Universal Antibody Dilution Buffer™

Catalog #25885

Description:

Universal Antibody Dilution Buffer is ready to use for dilution of antibodies in all immunoassays (Immunofluorescence, IHC, ELISA, WB). This buffer does not contain any mammalian proteins, phosphate, sodium azide or mercury preservative and can be used for dilution of all antibodies, including peroxidase, and antibodies to phosphoproteins. Not suitable for dilution of antibodies to S100 proteins.

Reagent:

Buffer is ready to use.

Storage:

2-8°C

Application:

Dilute antibodies, primary or secondary as recommended in the protocol by the manufacturer of these products. The diluted antibodies can be stored at 2-8°C for several weeks depending upon the stability of antibodies.
