

Technical Data Sheet

Acrylic Dye Set

#1265

Instructions

Mixing:

Mix the acrylic cold mounting resin for 15 seconds.

Add one drop of Acrylic-Dye per 30mm mounting cup and mix again until the resin is uniformly colored.

Wait for 15 seconds to release air bubbles.

Pour the mixture carefully over the specimen.

Tip:

The individual colors can also be mixed with each other to produce different colors.

Shake well before use.
